Dear Malcolm

Slip Alert

We, as you know have been using "slip alert" for over two years now and it has increased our level of professionalism when any of our floors are brought into question regarding slipness.

We have used it to prove the properties of our floors, or to demonstrate to prospective customers that existing floors are dangerous. Supermarket chains, fast food outlets, sports facilities, food factories have all benefited from our expertise, many have shown great interest as to where they can purchase the machine. It is easy to handle and use and gives on the spot indication as to the condition of the surface.

My thanks for the time and effort you take to ensure we fully understand the working and principals of the system. It has given us credibility when dealing with anti-slip matters.

Yours sincerely

Robert Brown
Managing Director
