Dear Mrs Bailey

Re – SlipAlert Meters

Following our purchase of two SlipAlert Meters from you earlier this year, I feel that I must write to you about how pleased we are with them and how they are assisting us to effectively identify areas of floor that are in need of attention.

I have found them to be particularly useful in testing floors, which contain some form of contaminant, as I test the floor, then clean it thoroughly, then re-test it. This way I am able to confirm whether it is the floor itself or the contaminant that's causing the problem. Armed with this data I am then able to investigate what cleaning process is being used, and challenge it in terms of its effectiveness.

I believe that the SlipAlert Meter has been a good investment, and it is a valuable tool for us in the fight against slippery floors and flooring.

Yours sincerely

Mike Cox
